DESCRIPTION OF THE REQUIREMENT

The Village of Salmo is looking to contract a local contractor to excavate and remove an old storm culvert and install the new one. Contractor will also be required to refill and rebuild the road back to regulation standards for a gravel lane. Interested proponents that are qualified to supply and complete this scope of work are welcome to participate in this request for quotation process.

DESCRIPTION OF THE REQUIRED WORK TO BE COMPLETED

To excavate and remove an old storm culvert and reinstall the two new ones. Contractor will also be required to refill and rebuild the road back to regulation standards. It will require 2 800 milli-meter diameter by 9-meter in length culvert to be supplied by the contractor and installed to manufacturer specifications and allow appropriate space for compaction. Contractor will be required to safely work around the sewer that is in the excavation area, ensuring that there is no sewer disruption, and the sewer elevation must remain unchanged. Along with a water line, there is also an active gas line that located in the excavation area, the contractor will be required to work and acquire any necessary permits and approvals required in order to do the necessary work. Materials to rebuild the road will also be required. All aspects of the quotation are to be included in the proposal of cost including labour, supplies, installation and required permits. Bids must also detail all aspects of the work and supplies required.

TIMELINE

The deadline for this project to be complete is of September 30th, 2022.
