DESCRIPTION OF THE REQUIREMENT

The Village of Salmo is looking for a contractor to design and construct two thousand one hundred and fifty (2150) feet of matching metal chain link fencing to border our local wastewater treatment plant facility. The fence must be six (6) feet in height and have security barbs installed along the top. The fence will have four (4) double gates that are already existing within the current fence design and will not need to be supplied. There is also five hundred (500) feet of currently installed fence posts that the Village would like to remain using and will only require fence chain link.

The contractor will be required to install the fencing, fence post and hardware in accordance with municipal building guidelines and building standards.

The Village is seeking lasting fencing construction. Submissions must also include a complete design description.

All aspects of each upgrade are to be included in the total proposal cost including supplies and shipping. Interested proponents that are qualified to supply commercial quality products are welcome to participate in this RFP process.

It is the purpose of the Village to obtain a proposal that provides the best value and suits the interests of the Village and what it wishes to accomplish.

REQUIREMENTS

- Contractor must provide proof of valid Worksafe BC coverage and provide a WorkSafe BC clearance letter.
- Contractor must provide proof of valid liability insurance up to 1 million dollars.
- Contractor will be required to obtain a Village of Salmo or Inter-Community business license prior to commencement of work,
