

Village of Salmo- Glendale Guardrail Replacement

Scope of Work

Glendale bridge is located within the Village of Salmo at the confluence of Main Street and Glendale Avenue. The guardrails at Glendale Bridge require removal and replacement. The engineering for the construction has been provided by Redwood Engineering. The guardrails run along each side of Glendale Bridge. The project scope includes the removal of the existing guardrails, proper disposal of existing guardrails and the supply & installation of the new guardrails. The work is expected to be completed by October 31, 2026. Sight visits can be arranged by contacting the Chief Administrative Officer at 250-357-9433.
